About Major League Builders

Founded in 2020, Major League Builders operates two construction departments serving Greater Houston and National Rollout Programs. We cover the full spectrum of commercial trades — Demolition, Concrete, Framing/Drywall, Painting, and Carpentry — with a strong preference for turnkey, multi-trade refreshes that include fixture installation.

Our vision is to streamline repeatable projects and make them as smooth as possible for every stakeholder. The founders met while volunteering in 2012 and built this company on hard work, positive values, and respectful culture. Worker retention is high — our crews cite genuine camaraderie and healthy job-site environments as the reason they stay.

Where MLB truly shines is national repeatable rollout programs — the same general contractors and fabricators, executing the same proven project types, anywhere in the United States. Strong, long-term relationships with our GC and fabricator partners are the engine of our growth.

~50 Field Staff	4–12 Crew Size Per Project	2 Departments (Houston + National)	\$2M / \$2M General Liability
---------------------------	--------------------------------------	---	---

Our Crew

With a field staff of nearly 50, we have hands-on experience across virtually every commercial trade. Traveling crews typically deploy in packs of 4–12, scaled to the project scope. For new national program clients, we start with a single focused crew to learn the system and fit into your workflow seamlessly before scaling up.

Full Insurance Coverage

Workers Comp & Auto	\$1,000,000
General Liability	\$2,000,000 / \$2,000,000

Where We Work

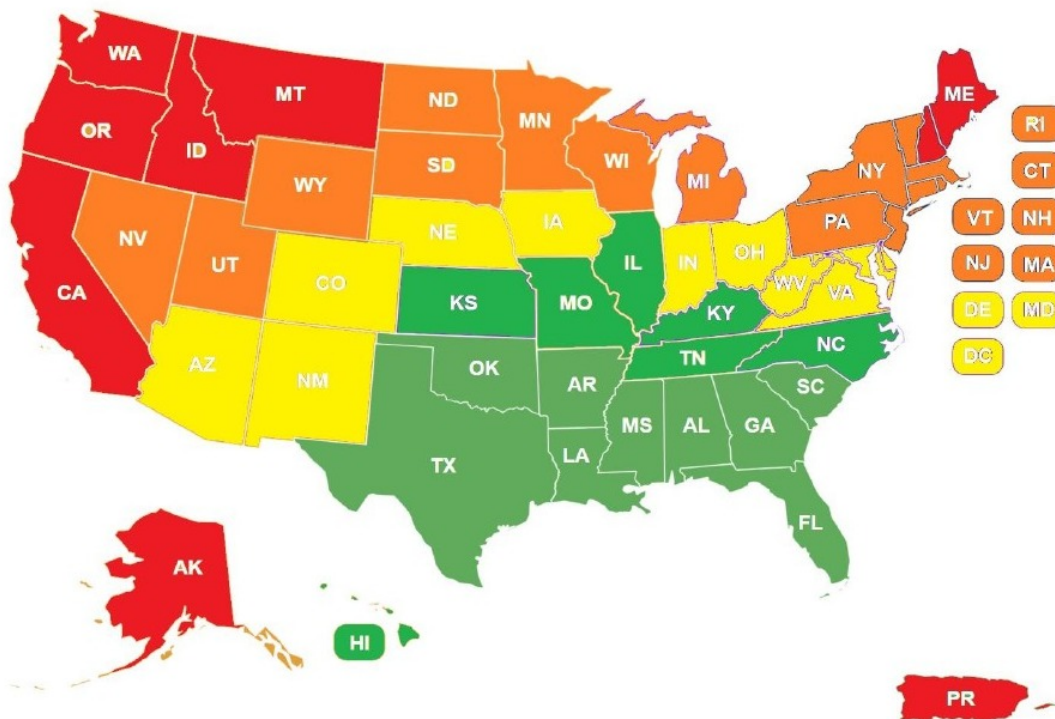

Major League Builders is headquartered in Arkansas with crews based in **Atlanta, GA**, **Houston, TX**, and **Little Rock, AR**. Our primary preference is the Southeast and South-Central United States, though we have successfully delivered projects in all regions of the country and will work wherever our clients need us.

● **Green** — Preferred Territory

● **Yellow** — Active Territory

● **Orange** — Available

● **Red** — Available (higher mobilization cost)

Crew Bases: Atlanta, GA · Houston, TX · Little Rock, AR

Our Services

MLB offers comprehensive multi-trade capabilities, enabling true turnkey delivery on commercial refresh, renovation, and rollout projects.

Demolition	Interior and exterior demolition, concrete breaking, selective teardown, debris removal, and site prep for new construction.
Concrete	Foundations, flatwork, curbs, ramps, ADA pads, trench cutting, and patching for interior and exterior applications.
Framing & Drywall	Steel and wood framing, insulation, drywall hang and finish — from rough openings to paint-ready surfaces.
Painting	Commercial interior and exterior painting, epoxy coatings, and specialty finishes to spec.
Carpentry & Millwork	Custom cabinetry installation, shelving systems, fixture installs, door frames, trim, and finish carpentry at any scale.
National Rollout Programs	Dedicated crews for multi-location national programs — consistent standards, the same GC relationships, coast to coast.

Clients & Notable Projects

Major League Builders has served a broad base of national brands across retail, luxury, healthcare, and convenience sectors. Highlighted clients from our national rollout programs include:

7-Eleven	Walmart	T-Mobile	Panera Bread
Dollar Tree	Saks Fifth Avenue	Tractor Supply Co.	Ross

Spotlight Projects

Charlotte Tilbury & Luxury Retail — Saks Fifth Avenue

MLB delivered high-end retail installations for Charlotte Tilbury inside Saks Fifth Avenue, covering custom fixture installs, precision finish carpentry, flooring, and millwork — all executed to the exacting standards of a luxury department store environment. This work is representative of MLB's capability to operate within live retail settings with minimal disruption and premium results.

Assisted Living Portfolio Refresh — Multi-State

MLB's largest completed project: a coordinated refresh of three assisted living facilities, each housing approximately 200 resident units. Scope included all interior millwork, casework installation, common-area finishing, and hardware throughout all three properties — executed on a compressed schedule.

7-Eleven National Rollout Program

Multi-location exterior and interior upgrades covering canopy installs, masonry openings, door and frame replacement, concrete flatwork, and interior fixture refreshes — executed with consistent standards across multiple states.
